

The Only Channel Manager with Real-time Revenue Management

CHANNEL MANAGER

Allotz Autopilot is connected to all major online accommodation reseller channels. Publish your rates and availability simultaneously on all of your selected channels without fear of overbooking.

Easily join new channels at any time, and have them populated with your data with minimum fuss.

Channel Analytics

Understand how your channels are working for you. **Allotz Autopilot** provides easy to understand analysis of real time data.

Market Intelligence

Real time insights into market, neighborhood and compset dynamics so you truly understand your OTA positioning and how you can increase your ranking for maximum results.

Advanced Rate Management

We take care of the complexities for you even if your PMS is too old to handle them. Derivative rates, rate mixing, closed user, packages, offers, seasonal variations, day of week.

Easy Onboarding

Switching to **Allotz Autopilot** from manually managing channels OR from your current channel manager couldn't be easier, with our onboarding tool's ability to import your property setup, rates and allotment data and bookings.

With **Allotz Autopilot** there are no commissions, lock-in contracts or hidden fees.

| *Advanced rates and availability dashboard*

GIVES YOU:

- ✓ Identify best performing channels at a glance
- ✓ Increase profits using local market insights
- ✓ Save time and money with advanced rate management
- ✓ Identify seasons and events at a glance
- ✓ Save time while rates are dynamically adjusted
- ✓ Real-time 2 way delivery
- ✓ Pain-free switching Channel Managers or Property Management systems
- ✓ Automatically import future bookings when switching

REVENUE MANAGEMENT

Our patented technology adjusts room rates and inventory based on demand and supply signals to maximize both occupancy and profit – all in real time. This can be automated or manual depending on your preference.

Multiple levers can increase profits. They can be pulled in isolation, in tandem or all at once. We can do it either way. You choose.

Frameworks (Business rules)

We understand that automation requires trust. In order to ensure you are comfortable, each property can set the rules and parameters by which adjustments occur according to their needs.

Manual to Full Automation

If you want to retain complete control, then rather than automatically apply adjustments, **Allotz Autopilot** can make suggestions regarding rate changes that you can easily apply with just a couple of clicks.

Intelligent occupancy reporting

Integrated with The Allotz Booking Engine

The **Allotz Autopilot** booking engine - **BookAllotz** - is a cost-effective and simple way for you to make commission-free sales directly from your website.
