

The Airbnb cleaning protocol handbook

Your step-by-step guide
to a deep clean, every time.

Important note about this handbook

Airbnb developed this cleaning protocol based on CDC guidance and in consultation with industry leaders (such as Ecolab and Dr Vivek Murthy, former US Surgeon General) in the fields of sanitisation and medicine. It sets out helpful tips and best practices and sets the baseline standard you are expected to meet as a participant in the programme. You should be aware that local governments around the world are issuing health and safety guidelines which may include mandatory cleaning protocols. If your listing is not in the United States, you should check local guidelines and rules that may have been issued by your local government or health authority, and ensure that you also comply with these.

This book is not provided with any guarantee, whether of comprehensiveness, efficacy or otherwise. We will continue to update this handbook periodically and will notify you so that you can maintain the cleaning protocol. Use of this handbook is subject to our [Terms](#).

If you decide to follow the protocol, you acknowledge that you may need to take additional steps to protect yourselves, your teams and your guests. You also acknowledge that you or your guests may still come into contact with and/or contract a communicable disease, including COVID-19, even if you follow the steps in this handbook. Airbnb is not responsible for any injuries or disease resulting from following these guidelines.

Every space on Airbnb is different and we understand that some have unique features that may require specialised cleaning or sanitising. If a guest has access to a space that is not covered by this handbook, apply the principles outlined in this handbook when cleaning and sanitising that space. If a guest must pass through an area of the building that you're not able to clean to access your listing, we recommend that you let them know what areas you could not clean so they can take appropriate precautions.

This handbook is protected by copyright and is the property of Airbnb. Any unauthorised reproduction of part, or all, of the handbook beyond its intended purpose of providing hosts on Airbnb with helpful practices to clean and sanitise their listings is strictly prohibited.

© 2020 Airbnb, Inc. All rights reserved.

Cleanliness has always been a priority for our hosts and we know that it's fundamental to a great guest experience. Many hosts have come to us with questions about cleaning—what supplies to use, how to help keep yourself and your guests safe, and how to elevate your cleaning practices.

We've developed a cleaning protocol, created specifically for hosts. Here's what you can expect:

Developed with experts

Airbnb developed the cleaning protocol outlined in this handbook in partnership with Ecolab, a global leader in cleaning and hygiene technologies. We also received guidance from Dr Vivek Murthy, the former US Surgeon General, along with other experts.

Step-by-step checklists and education

Find specific instructions on how to clean, what to sanitise and what supplies to have on hand. We'll be rolling out additional resources, so you feel confident providing a deeper clean, every time.

A new way to show guests you've gone the extra mile

Hosts who commit to the Airbnb cleaning protocol will receive a special call-out on their listing, so guests know you're committed to an enhanced cleaning and sanitisation routine.

[Tips to help reduce the risk of cross-contamination](#) →

[Room-by-room checklists](#) →

QUICK TIP

To get started, read through the entire handbook, then reference the relevant sections as you clean. If you work with a cleaning professional, please make sure they follow these guidelines.

Developed with

Hosting during COVID-19

During these challenging times, it's important to revisit your cleaning routine. In addition to cleaning and sanitising your listing according to the Airbnb cleaning protocol, there are other ways to help prevent the spread of COVID-19.

Practice social distancing

You can help encourage social distancing by offering self check-in and checkout. Consider installing a key safe or smart lock with a keypad and remember to update your listing to [add self check-in instructions](#). You can also minimise person-to-person contact by avoiding routine maintenance during your guest's stay.

Wait before entering the listing

Check your local authority for guidance on how long to wait before entering a space occupied by a person who may have been exposed to COVID-19. For example, the US Center for Disease Control and Prevention suggests waiting 24 hours. If that's not possible, we recommend waiting at least 3 hours, which is what the European CDC recommends. The waiting period is for your protection and helps to ventilate the room to limit your exposure to aerolised virus droplets that may be in the room. For up-to-date information on cleaning standards in your region, visit the [Airbnb Help Centre](#).

Wear protective gear while you clean

Personal protective items like disposable gloves, aprons or gowns, and facial coverings (such as homemade or purchased masks) may provide additional protection. Make sure to wash your hands immediately after removing gloves.

Make sure to review and follow any additional cleaning guidance from government or health authorities in your local jurisdiction. You can also visit the [Airbnb Resource Centre](#) for additional guidance on hosting during this time.

Part one

Get to know Airbnb's enhanced cleaning protocol

In this section, we'll define some key terms, break down the five-step cleaning process and equip you with detailed instructions on how to clean and sanitise your space.

These techniques can then be applied to the specific rooms in your listing. Let's get started!

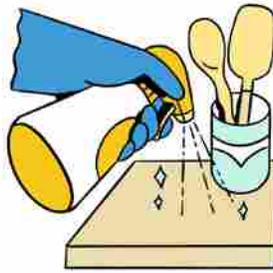

The difference between cleaning and sanitising

Cleaning and sanitising are two separate steps, and it's important to do both in the correct order.

Cleaning

Cleaning is when you remove germs and dirt from surfaces. For example, using a soapy sponge to wipe off a kitchen benchtop or stovetop.

Sanitising

Sanitising is when you use chemicals to reduce the number of germs and bacteria. For example, spraying a chemical disinfectant on high-touch surfaces such as doorknobs.

The five-step cleaning process

1. Prepare your equipment and get the space ready for cleaning

2. Clean each surface by removing dust and debris

3. Sanitise all high-touch areas, appliances and electronics

4. Check that the space has been thoroughly cleaned and sanitised

5. Reset the room for the next guest and restock your supplies

The five-step cleaning process

Step 1: Prepare

your equipment and
get the space ready
for cleaning

The five-step cleaning process

Step 1: Prepare

Gather the right cleaning supplies

We recommend only using disinfectant and sanitiser solutions that are registered with your local government's chemical regulators (e.g. The Environmental Protection Agency).

Wash your hands for at least 20 seconds with soap and water

If that's not possible, use a hand sanitiser containing at least 60% alcohol.

Ventilate rooms before you clean.

Open outside doors and windows and use ventilating fans to increase air circulation in the space before beginning to clean and sanitise.

Review the safety guidelines for your chemicals

Always read the labels on your products to understand their active ingredients and how to use them properly. For more on how to read the labels on your products and their Safety Data Sheets, check your local authority. For example, in the USA, refer to the Occupational Health and Safety Administration, and in the EU refer to the European Chemicals Agency.

Wear protective equipment at all times

Before you enter the space, put on protective equipment such as disposable gloves, aprons or gowns, and masks or cloth facial coverings.

Unplug before cleaning

For your safety and to protect fixtures, remember to unplug appliances before cleaning. Plugged appliances that are turned 'off' are still connected to electricity until unplugged. You can also shut off the power at the circuit breaker.

SAFETY REMINDER

Do not enter a space without the recommended protective equipment and do not reuse soiled gear. Be sure to read all safety labels so you understand how to use cleaning chemicals properly.

The five-step cleaning process

Step 2: Clean each surface by removing dust and debris

The five-step cleaning process

Step 2: Clean

Take out all the rubbish

Starting with this step helps prevent dirty rubbish from contaminating the space once it has been cleaned. Make sure to line all the rubbish bins, which will make it easier to dispose of tissues and other waste.

Wash all linen at the highest heat setting recommended by the manufacturer

Avoid shaking dirty linen, which could increase the spread of germs. Remember to change your disposable gloves before you handle any clean linen.

Wash all dishes and empty the dishwasher

It's important to wash all the dishes—even ones in the cabinet—to help ensure hygienic standards. Start by walking through the space and collecting dishes from every room, to help avoid cross-contamination.

Dust the space and sweep or vacuum the floor

When dusting, start from the top down to ensure there are no visible signs of dirt. Sweep all hard surface floors and vacuum the carpet.

Clean all hard surfaces with soap and water

Wipe each surface down to remove dirt, grease, dust and germs. Hard surfaces include things like benchtops, tables, sinks, cabinets and floors. When mopping, work from the back corner of the room to the front and dispose of the water in a sink that has not yet been cleaned.

Clean all soft surfaces based on the manufacturer's instructions

Soft surfaces include things like carpet, bedding, curtains and upholstery. Carefully remove any visible dirt or grime, then clean with the appropriate cleaners indicated for use on these surfaces. If possible, machine-wash items according to the manufacturer's instructions.

SAFETY REMINDER

Do not touch your face while cleaning to help prevent the spread of germs.

The five-step cleaning process

Step 3: Sanitise

all high-touch
areas, appliances
and electronics

The five-step cleaning process

Step 3: Sanitise

Once a hard surface is clean, spray with disinfectant

Focus on sanitising all frequently touched surfaces in the space (such as doorknobs and light switches), as well as surfaces that may have touched soiled linen (such as flooring). Be sure to sanitise electronics based on the manufacturer's cleaning directions.

Let the disinfectant stand for the specified length of time

The product label will specify the wet contact time needed for the chemicals to effectively sanitise a surface. This allows the chemicals time to kill as many germs as possible.

Allow to air-dry

If the surface dries before the wet contact time, there's no guarantee that the product has killed the pathogens claimed on the label. When possible, allow the surface to air-dry.

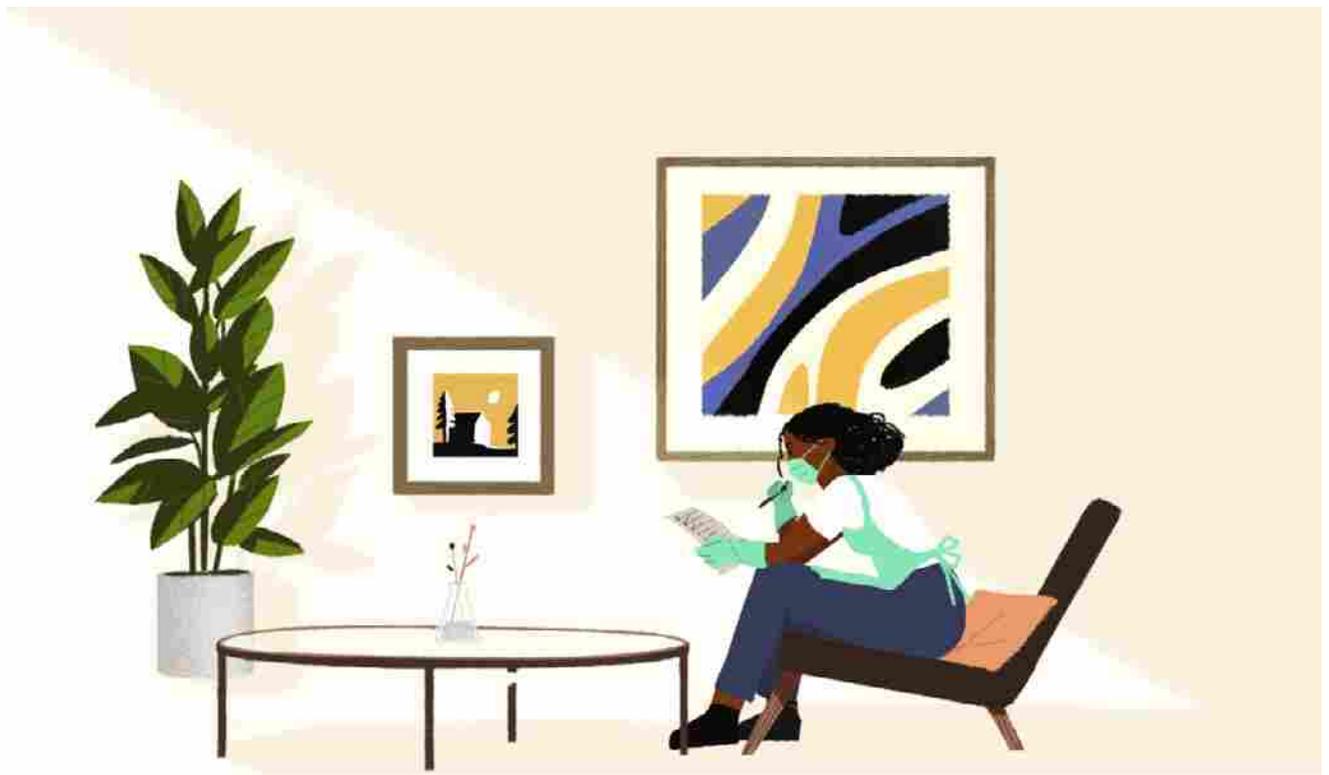

SAFETY REMINDER

Be sure to read all safety labels to ensure you're using cleaning chemicals properly.

The five-step cleaning process

Step 4: Check

that the space has
been thoroughly
cleaned and sanitised

The five-step cleaning process

Step 4: Check

Review the room-by-room guidelines

Follow the checklist for each room to ensure thorough cleaning and sanitisation.

Double-check that all high-touch surfaces were sanitised

Correct anything that may have been missed.

The five-step cleaning process

Step 5: Reset

the room for the next guest and restock your supplies

The five-step cleaning process

Step 5: Reset

Dispose of and wash your cleaning supplies

Throw away disposable products such as disinfectant wipes. Wash any cleaning cloths at the highest heat setting appropriate for the material.

Empty and sanitise the vacuum cleaner after every cleaning

Be sure to also disinfect any other cleaning tools that were used.

Safely remove any cleaning gear once you are done cleaning

Dispose of or wash any protective gear according to their usage guidelines.

Wash your hands for at least 20 seconds with soap and water

If that's not possible, use a hand sanitiser containing at least 60% alcohol.

Set out cleaning supplies for your guests

We've heard from guests that they want the ability to clean on their own while staying at your listing. Empower your guests by setting out guest cleaning supplies they can use, such as disposable paper towels, disposable gloves, disinfectant spray or wipes and extra hand soap.

Restock your cleaning supplies

Be sure to take a moment to check expiry dates and refill any supplies that you have used, so you're ready for the next turnover.

Visually assess each room to ensure the stage is set for the next guest

Imagine yourself as the guest entering the listing for the first time.

SAFETY REMINDER

Always keep chemical products out of reach of children.

Part 2

Detailed cleaning checklists

Here you can find your go-to checklists:

- Supplies to have on hand
- Steps to help prevent cross-contamination in your cleaning process
- Room-by-room checklists

Supplies to have on hand

Start by gathering all the items you'll need to clean, sanitise and maintain your listing.

Protective gear

- Disposable gloves
- Mask or cloth facial covering
- Safety glasses
- Apron or gown
- Shoe coverings (recommended)

Guest cleaning supplies

- Disposable paper towels
- Disposable gloves
- Multi-surface cleaner
- Disinfectant wipes or spray
- Antibacterial hand sanitiser
- Extra hand soap

Equipment

- Broom
- Bucket
- Duster
- Dustpan
- Microfibre cloths
- Paper towels
- Scrubbing pads
- Scrubbing brush
- Step ladder
- Toilet brush
- Rubbish bags
- Vacuum cleaner
- Vacuum bags (if necessary)
- Mop
- Washing Machine & Dryer
- Dishwasher

Products

- Multi-surface cleaner
- Multi-surface disinfectant
- Glass cleaner
- Bleach
- Laundry detergent
- Laundry stain remover
- Dishwashing liquid
- Carpet cleaner
- Floor cleaner
- Furniture/wood polish
- Oven cleaner
- Oven degreaser
- Mould cleaner (if necessary)

Tips to help reduce the risk of cross-contamination

It's important that you find a cleaning process that works best for your space and your cleaning team. As you get up to speed, here are some tips and techniques to help protect against contamination, while creating the most efficient workflow possible.

Clean the dirtiest spaces first

Spend the most time cleaning the areas that are most prone to germs and bacteria. This means starting with the bathroom and kitchen before moving on to the rest of the space. We recommend cleaning in the order below:

1. Bathroom
2. Kitchen
3. Bedrooms
4. Common areas (e.g. living room, dining room, office)
5. Outdoor areas
6. Entryway

After sanitising a room, close the door

When you finish sanitising and resetting a room, close the door and disinfect the doorknob. This is an indication to yourself and any other members of your cleaning team that the room has been completed. Once sanitised, don't re-enter this space.

Replace your protective gear between steps

Each time you switch between cleaning and sanitising, be sure to replace your gloves and any gear that may have been contaminated.

End with the entryway

Complete the outdoor and interior spaces before you sanitise the entryway. Finishing your cleaning process at the entryway means you can lock up and leave as you clean.

Room-by-room checklists

Checklists for cleaning and sanitising every
room in your listing

Bathroom cleaning checklist

Guidance on how to sanitise a bathroom that has a toilet, shower and/or bathtub

Step 1: Prepare

- Open outside doors and windows and turn on fans to ventilate the area before you begin. If possible, leave the windows open throughout the entire cleaning process.
- Gather your supplies

PROTECTIVE GEAR

- Disposable gloves
- Mask or cloth facial covering
- Safety glasses
- Apron or gown
- Shoe coverings (recommended)

EQUIPMENT

- Vacuum cleaner or broom and dustpan
- Rubbish bag
- Microfibre cloths
- Extendable duster
- Scrubbing brush
- Toilet brush
- Washing machine
- Dryer
- Mop
- Bucket (if necessary)

PRODUCTS

- Bleach
- Laundry detergent
- Multi-surface cleaner
- Multi-surface disinfectant
- Glass cleaner
- Mopping solution

Step 2: Clean

- Remove dirty linen, towels and shower curtains and wash them at the highest heat setting recommended by the manufacturer
- Empty any rubbish bins and recycling bins, then line empty bins with fresh rubbish bags
- Spray the toilet, shower, bathtub and sink with a multi-surface cleaner and allow it to set for the amount of time specified on the label. Be sure to cover:
 - The inside of the toilet bowl, the seat and the seat hinges. Put down the toilet seat while the cleaner sets.
 - The surfaces of the shower walls or bathtub
 - Any tiled surfaces
 - The sink basin, handles and backsplash
- Clean the toilet:
 - Scrub the inside of the toilet bowl and make sure that any build-up has been removed
- Clean the toilet brush:
 - Secure the brush handle between the already-cleaned seat and the basin so that it hovers over the bowl and pour bleach over the bristles
 - Wait a few minutes, then rinse it with a jug of clean water
- Clean the toilet brush canister:
 - Fill the brush canister with warm, soapy water and let it sit for a few minutes
 - Dump the dirty water into the toilet and flush
- Clean the shower walls or bathtub interior:
 - Scrub the surfaces with a scrubbing brush
 - Rinse the surfaces and wipe them dry with a microfibre cloth
- Clean the sink:
 - Using the scrubbing brush, scrub the basin, handles and backsplash to loosen any build-up
 - Flush the sink drain with hot water and rinse the sink basin for a few minutes
 - Wipe down the taps, flossing between the small spaces using a microfibre cloth, and finish by wiping down the backsplash
 - Once all the water has drained, wipe down the basin with a clean microfibre cloth
 - Place the microfibre cloths in the laundry to be sanitised and do not use them to clean anything else
- Clean all tiled areas:
 - Wipe down with a microfibre cloth, working from top to bottom
 - Pay particular attention to the spaces between the tiles
- Clean all remaining bathroom surfaces:
 - Use a microfibre cloth and a multi-surface cleaner to wipe down all of the remaining bathroom surfaces, making sure to work from top to bottom
 - Use an extendable duster to clean hard-to-reach areas such as high shelves, windowsills and the space behind air conditioning units or heaters
- Sweep or vacuum the floor to remove any hair and debris, starting at the farthest corner in the room and working towards the door
- Mop the floor, paying particular attention to corners and the areas behind the doors
- Clean any mirrors and glass using glass cleaner and a microfibre cloth

Step 3: Sanitise

- Use a multi-surface disinfectant and spray frequently touched surfaces and allow them to air dry. Be sure to sanitise:
 - Door handles and knobs
 - Light switches
 - Sink, bath and shower taps
 - The sink basin
 - Toilet handle, seat and surface
 - Benchtops
 - Cabinets
 - Shelves
 - Windowsills and handles
 - Blinds
 - Railings
 - Rubbish bins

Step 4: Check

- Make sure you've completed all the tasks above
- Check that the lights and electronics are working properly
- Ensure that any HVAC/air filters have been replaced as per the manufacturer's recommendation

Step 5: Reset

- Wash your hands and put on a pair of clean gloves, then:
 - Hang the shower curtain and liner and extend them so that they can dry properly
 - Replace the toilet rolls, guest supplies and fresh towels
 - Replace or refill any hospitality items (i.e. shampoo, conditioner, hand soap, body soap) for the next guest
 - Switch off all lights and devices
 - Close the windows, arrange the curtains and blinds, turn off the lights, closing the door behind you as you exit the room

Kitchen cleaning checklist

Guidance on how to clean and sanitise a kitchen or kitchenette

Step 1: Prepare

- Open outside doors and windows and turn on fans to ventilate the area before you begin. If possible, leave the windows open throughout the entire cleaning process.
- Gather your supplies

PROTECTIVE GEAR

- Disposable gloves
- Mask or cloth facial covering
- Apron or gown
- Shoe coverings (recommended)

EQUIPMENT

- Vacuum cleaner or broom and dustpan
- Rubbish bag(s)
- Microfibre cloths
- Sponge*
- Scrubbing pad
- Mop
- Bucket (if necessary)

PRODUCTS

- Dishwashing liquid
- Dishwasher detergent or pods
- Waste disposal tablets
- Multi-surface cleaner
- Multi-surface disinfectant
- Oven cleaner
- Oven degreaser (if necessary)
- Mopping solution

**The sponge should be new.
Do not use a sponge for multiple cleaning tasks.*

Step 2: Clean

- Remove any food and waste
 - Empty any food items the previous guest may have left in the refrigerator, freezer and pantry
 - Empty any rubbish bins and recycling bins, then line empty bins with fresh rubbish bags
- Wash any dirty dishes
 - Check the dishwasher for any dishes
 - Place clean dishes aside and return dirty dishes to the dishwasher for a second cycle
 - Fill the kitchen sink halfway with hot water and dishwashing liquid and soak any dishes with stuck-on food or grease
 - Hand wash any items that are not dishwasher safe, such as pots and pans
- Rewash all other dinnerware to ensure it's been properly cleaned
 - Moving left to right through cabinets and drawers, pull out all the dishes, cutlery, cups and glasses
 - Place all items in the dishwasher (everything must be washed in the dishwasher between guests). If you don't have a dishwasher, hand wash all dishes with dishwashing liquid and hot water.
 - Inspect all the rooms for any additional dirty dishes and add them to the dishwasher or sink
 - Remove and clean the microwave plate
- Using a multi-surface cleaner and a clean microfibre cloth, wipe down:
 - Refrigerator shelving
 - Interior walls of the refrigerator and freezer
 - Pantry shelves and walls
 - Benchtops, ledges and backsplashes
 - The inside of the rubbish bin and recycling bin
- Clean the oven and the rangehood
 - Using oven cleaner, spray the stovetop, the inside of the oven and the inside of the microwave
 - Follow cleaning instructions that tell you how long to let the cleaner set, then scrub off any build-up with a scrubbing pad
 - Use a microfibre cloth and water to wash off any chemical and carbon particles
 - Clean the interior of the rangehood with a scrubbing pad
 - Use a wet cloth and water to wash away any residue
- Unplug and clean any additional appliances, such as coffee machines or toasters
 - Disassemble all movable parts so they can be properly cleaned
 - Use a multi-surface cleaner and cloth to wipe down all exterior areas
 - Use a wet scrubbing pad for any debris that is not easily removable
 - Set the appliances aside and allow them to air-dry
 - If you're not able to air-dry appliances, use dry microfibre cloths to dry them instead
- Clean the sink, waste disposal unit and dishwasher
 - Rinse down any food particles and cleaning agent in the sink
 - Check inside the dishwasher to ensure there is no food debris sitting at the bottom and that the inside of the dishwasher is clean
 - If it's not clean, add dishwasher detergent and run the dishwasher without any items inside
- Sweep and mop the floor

Step 3: Sanitise

- Use a multi-surface disinfectant and spray frequently touched surfaces and allow them to air-dry. Be sure to sanitise:
 - The tap and sink basin
 - Cabinets
 - Shelves
 - Doors and door handles
 - Cutlery holders
 - The outside of the microwave and buttons
 - The inside of the microwave
 - The inside of the dishwasher
 - Oven handles and knobs
 - The outside of the refrigerator and handles
 - Fan and lamp chains
 - Rubbish bins and recycling bins
 - Light switches
 - Railings
 - Tabletops
 - Thermostats
 - Windowsills and handles
 - Blinds
 - Keys
 - Remote controls
 - Your Airbnb welcome book

Step 4: Check

- Make sure you've completed all the tasks above
- Check that the lights and electronics are working properly
- Dry off any metal surfaces or appliances with microfibre cloths

Step 5: Reset

- Wash your hands and put on a pair of clean gloves, then:
 - Put away any pots, pans, appliances and dishes that have been moved
 - Replace cleaned linen, such as teatowels
 - Replace any racks and plates you removed from the refrigerator, microwave or oven
 - Switch off all lights and devices
 - Close the windows, arrange the curtains and blinds, turn off the lights, closing the door behind you as you exit the room

Bedroom cleaning checklist

Guidance on how to clean and sanitise a bedroom or dedicated sleeping area

Step 1: Prepare

- Open outside doors and windows and turn on fans to ventilate the area before you begin. If possible, leave the windows open throughout the entire cleaning process.
- Gather your supplies

PROTECTIVE GEAR

- Disposable gloves
- Mask or cloth facial covering
- Apron or gown
- Shoe coverings (recommended)

EQUIPMENT

- Vacuum cleaner or broom and dustpan
- Rubbish bag
- Microfibre cloths
- Extendable duster
- Washing machine
- Dryer
- Mop
- Bucket (if necessary)

PRODUCTS

- Multi-surface cleaner
- Multi-surface disinfectant
- Laundry detergent
- Glass cleaner
- Furniture polish

Step 2: Clean

- Empty any rubbish bins and recycling bins, then line empty bins with fresh rubbish bags
- Remove dirty linen, towels and shower curtains and wash them at the highest heat setting recommended by the manufacturer:
 - Towels
 - Sheets
 - Doona covers
 - Blankets
 - Pillow cases and protective covers
- Dust all surfaces with a microfibre cloth and a multi-surface cleaner
- Use an extendable duster to clean hard-to-reach areas
- Pull the bed away from the wall and vacuum all carpeted areas, including behind and under the bed
- Sweep all non-carpeted areas with a broom and dustpan, including behind and under the bed
- Mop all non-carpeted areas, paying particular attention to corners and the area behind the doors
- Wipe down electronics with a damp microfibre cloth, following the manufacturer's guidelines
- Use furniture polish as needed on:
 - Bed frames
 - Bedside tables
 - Chairs
 - Clothing racks
 - Other wooden furniture
- Spray glass cleaner on a new microfibre cloth and clean any glass, mirrors or windows, from top to bottom

Step 3: Sanitise

- Use a multi-surface disinfectant and spray frequently touched surfaces and allow them to air-dry. Be sure to sanitise:
 - The TV remote
 - TV screen buttons
 - The telephone
 - Light switches
 - Doorknobs
 - Bedside tables
 - Electronics
 - Clothing racks
 - Clothes hangers
 - Chest of drawers/armoires
 - Windowsills and handles
 - Blinds

Step 4: Check

- Make sure you've completed all the tasks above
- Check that the lights and electronics are working properly

Step 5: Reset

- Wash your hands and put on a pair of clean gloves, then:
 - Make the bed using fresh, clean sheets, pillow cases and a doona or comforter
 - Replace or refill any hospitality items for the next guest
 - Switch off all lights and devices (where applicable)
 - Close the windows, arrange curtains/blinds and close the door behind you

Common room cleaning checklist

Guidance on how to clean and sanitise a common area, such as a living room, family room, dining room or office without a dedicated bed

Step 1: Prepare

- Open outside doors and windows and turn on fans to ventilate the area before you begin. If possible, leave the windows open throughout the entire cleaning process.
- Gather your supplies

PROTECTIVE GEAR

- Disposable gloves
- Mask or cloth facial covering
- Apron or gown
- Shoe coverings (recommended)

EQUIPMENT

- Vacuum cleaner or broom and dustpan
- Rubbish bag
- Microfibre cloths
- Washing machine
- Dryer
- Mop
- Bucket (if necessary)
- Extendable duster (if necessary)
- Bristle brush (if necessary)

PRODUCTS

- Multi-surface disinfectant
- Laundry detergent
- Detergent solution
- Mopping solution
- Glass cleaner
- Stain remover

Step 2: Clean

- Empty any rubbish bins and recycling bins, then line empty bins with fresh rubbish bags
- Remove all the following items and wash them at the highest heat setting allowed by the manufacturer.
 - Throw pillow covers
 - Blankets
 - Dining room linen
 - Curtains
- Remove all objects from the surface of tables and shelves, such as decor, lamps or placemats. Starting with the highest shelf, use a microfibre cloth to dust shelving, surfaces and items below, working from left to right:
 - TVs
 - Speakers
 - Lamps
 - Gaming consoles
 - Shelving
 - Cabinets
 - Wall art or pictures
- Use a water and detergent solution to clean:
 - Walls
 - Skirting boards
 - Table tops and furniture
- Vacuum:
 - Sofas, chairs and other seating
 - All rugs and carpets
- If there are any stains:
 - Use a microfibre cloth, bristle brush and stain remover to spot treat any carpet stains
 - Gently blot any upholstery stains using a water and detergent solution
- Mop the floor
- Spray glass cleaner on a new microfibre towel and clean any glass from top to bottom

Step 3: Sanitise

- Use a multi-surface disinfectant and spray frequently-touched surfaces and allow them to air-dry. Be sure to sanitise:
 - Doorknobs
 - Cabinet knobs
 - Fan and lamp chains
 - Blinds
 - Keys
 - Light switches
 - Railings
 - Remote controls
 - Tabletops
 - Thermostats
 - Windowsills
 - Fan and lamp chains
 - Blinds
 - Rubbish bins and recycling bins
 - Electronics
 - Book covers
 - Your Airbnb welcome book
 - Smart keypads (if applicable)
 - Gym and exercise equipment (if applicable)

Step 4: Check

- Make sure you've completed all the tasks above
- Check that the lights and electronics are working properly
- Ensure that any HVAC/air filters have been replaced as per the manufacturer's recommendation

Step 5: Reset

- Wash your hands and put on a pair of clean gloves, then:
 - Replace any objects that may have been moved during cleaning
 - Reset all freshly laundered linen such as pillows, throw blankets and curtains
 - Set out cleaning supplies that guests can use during their stay, such as:
 - Disposable paper towels
 - Disposable gloves
 - Multi-surface cleaner
 - Disinfectant wipes or spray
 - Antibacterial hand sanitiser
 - Extra hand soap
 - Switch off all lights and devices
 - Close the windows, arrange curtains/blinds, turn off the lights and close the door behind you

Outdoor area cleaning checklist

Guidance on how to clean and sanitise a patio, deck or outdoor area

Step 1: Prepare

Gather your supplies

PROTECTIVE GEAR

- Disposable gloves
- Mask or cloth facial covering
- Apron or gown
- Shoe coverings (recommended)

EQUIPMENT

- Vacuum cleaner
- Broom and dustpan
- Microfibre cloths

PRODUCTS

- Multi-surface cleaner
- Multi-surface disinfectant

Step 2: Clean

- Sweep any outdoor patio spaces and dispose of debris using a dustpan
- Shake out any rugs to remove dust and debris
- Vacuum the surface of any soft patio furniture
- Using a multi-surface cleaner, wipe down hard surfaces, including:
 - Patio walls
 - Window screens
 - Doors
 - Window sills
 - The ceiling
 - Umbrellas
 - Lighting fixtures
 - Pool or hot tub surfaces
 - All outdoor furniture including tables, chairs, patio bars, shelves, outdoor fridges and barbecues/grills.
- Spray glass cleaner on a new microfibre towel and clean any glass from top to bottom

Step 3: Sanitise

- Use a multi-surface disinfectant and spray frequently touched surfaces and allow them to air-dry. Be sure to sanitise:
 - Doorknobs
 - Screen door handles
 - Tables
 - Chairs
 - Shelves
 - Furniture
 - Light switches
 - The patio bar (if applicable)
 - The outdoor fridge (if applicable)
 - The barbecue/grill (if applicable)
- If you have a pool or hot tub, follow the manufacturer's instructions on cleaning and sanitisation

Step 4: Check

- Make sure you've completed all the tasks above
- Check that the lights and electronics are working properly
- Ensure that any HVAC/air filters have been replaced as per the manufacturer's recommendation
- Make sure that the furniture is clean and in good condition
- Make sure that all lights, appliances and amenities (e.g. hot tub) are in working order

Step 5: Reset

- Wash your hands and put on a pair of clean gloves, then:
 - Replace any objects or cushions that may have been moved during cleaning

Entryway cleaning checklist

Guidance on how to clean and sanitise the interior or exterior entryway of your place

Step 1: Prepare

- Open outside doors and windows and turn on fans to ventilate the area before you begin. If possible, leave the windows open throughout the entire cleaning process.
- Gather your supplies

PROTECTIVE GEAR

- Disposable gloves
- Mask or cloth facial covering
- Apron or gown

EQUIPMENT

- Vacuum cleaner
- Broom and dustpan
- Microfibre cloths
- Extendable duster
- Mop
- Bucket (if necessary)

PRODUCTS

- Multi-surface disinfectant
- Detergent solution
- Mopping solution
- Glass cleaner

Step 2: Clean the space

- Shake out the floor mat to remove dust and debris
- Use a microfibre cloth or duster to dust:
 - The top and sides of furniture
 - The door entrance and door hinges
- Using a detergent solution and a microfibre cloth:
 - Wipe down the walls and any ceiling surfaces with visible dirt, allowing them to air-dry when you're done
 - Spot clean any carpets and rugs
- Sweep the following areas:
 - The door threshold plate
 - Crevices
 - Baseboards
- Vacuum:
 - Sofas, chairs and other seating
 - All rugs and carpets
- Mop the floors
- Clean any windows using glass cleaner

Step 3: Sanitise

- Use a multi-surface disinfectant and spray frequently touched surfaces and allow them to air-dry. Be sure to sanitise:
 - The doorbell
 - Doorknobs
 - Keypads
 - Handrails
 - Light switches
 - Blinds

Step 4: Check

- Make sure you've completed all the tasks above
- Check that the door locks, unlocks, opens and closes easily
- If you have a keypad, check that it is clean and in good condition
- Check that any lights are working properly

Step 5: Reset

- Wash your hands and put on a pair of clean gloves, then lock the door behind you
 - Step back and admire your hard work. You did it!

Cleaning is a process and we're in it together

By following this cleaning protocol, you're offering a great guest experience and taking significant steps toward protecting yourself, your guests and the global Airbnb community. We know that introducing a new process into your workflow takes time, so we're already developing new host education and product features to help you get up to speed.

Stay tuned for updates—and in the meantime, check out the links below.
